Doctor Care Anywhere

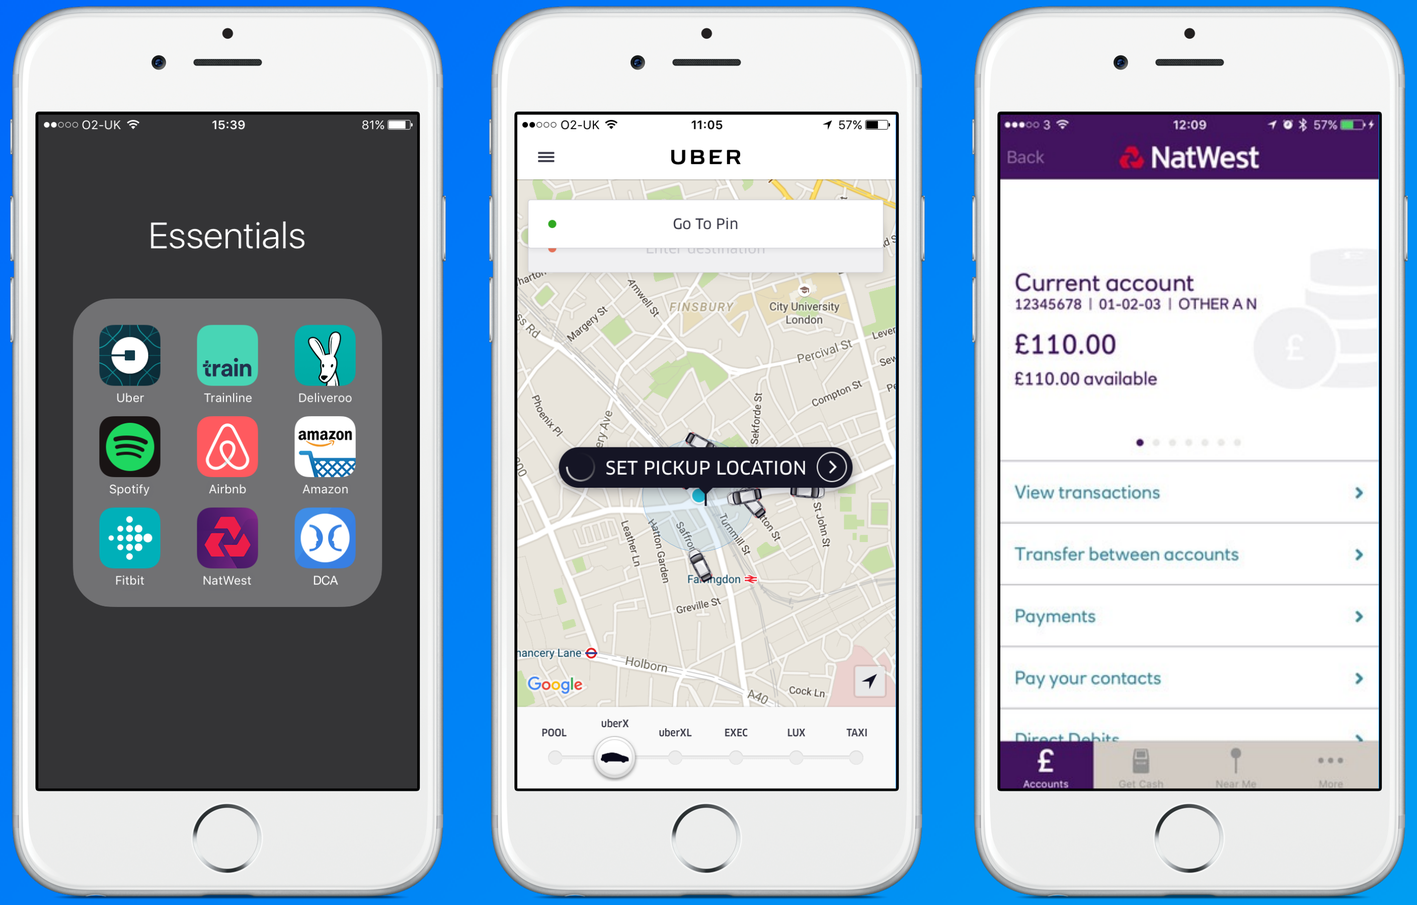
Doctor Care Anywhere.

Proper Primary Care - Meeting the healthcare needs of established and aspiring global corporations

Employee Benefits Live, 12th October 2016

Bayju Thakar, Founder & Director, Doctor Care Anywhere

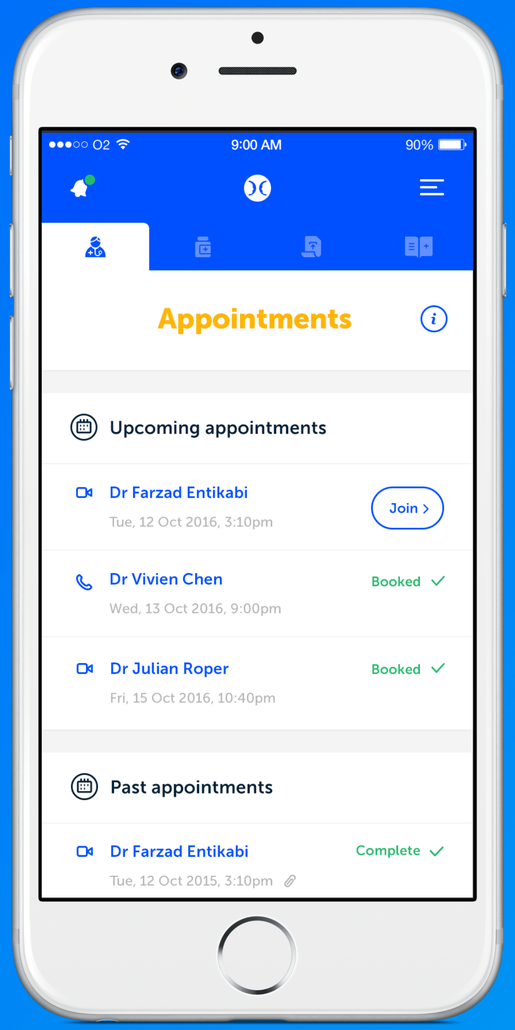
Consumer expectations have drastically changed. In response, traditional offline services have moved online…



…and in health, new ways of thinking have emerged to empower people.

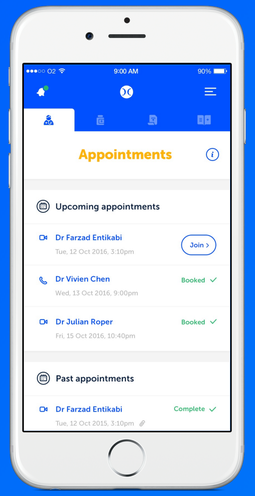
So what expectations do consumers have about primary care?

- Holistic and proactive
- On all devices & on the corner
- Lifelong/continuous
- Instantly accessible
- Personalised
- Uncompromising quality
- Reliable
- Affordable

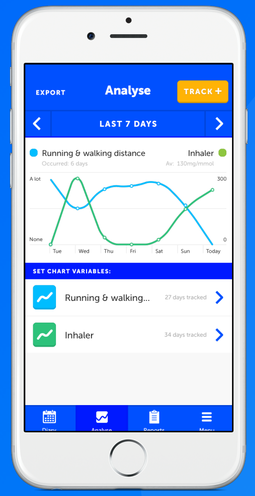


A comprehensive digital service

Centralised Medical Record



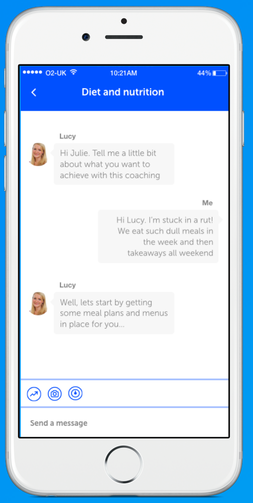
Health tracking and medication reminders



Online video and phone GP consultations

International prescription management

Additional support (e.g. Nutrition support programme)



…integrated into traditional services

Face-to-face GP consults and exams

Diagnostics and testing

Nurse home visits

Health assessments

…and the two integrate seamlessly.

Virtual

Traditional

This is proper primary care.

…and that access should be from anywhere in the world
